Perfect for large-scale growers, greenhouse cultivators, and distributors. Each block expands up to 70–75 litres when hydrated, ensuring superior aeration and moisture retention

# EXPORT PALLET PACKING

At WeJOHAR, we prioritize the safe and efficient transportation of our cocopeat blocks to customers worldwide.

With years of export experience, we ensure every product is meticulously packed and loaded to meet international shipping standards.

Each pallet is designed for maximum space utilization and product safety during long-distance sea freight. Our packing ensures that the blocks remain secure, moisture-protected, and ready for immediate use upon arrival

Whether shipped loose, palletized, or wrapped for branded presentation, every consignment reflects WeJOHAR's commitment to global quality and professional handling.

# CONTAINER LOADING

At WeJOHAR, we prioritize the safe and efficient loading of our cocopeat shipments for global destinations.

With years of operational expertise, we ensure every container is strategically packed to optimize space, maintain stability, and protect product integrity throughout the journey.

Each shipment undergoes strict weight, alignment, and moisture checks before sealing, ensuring compliance with international export and freight standards.

Our logistics team monitors every stage of the loading process — from factory dispatch to final port clearance — guaranteeing that our clients receive products on time, in perfect condition, and with complete transparency

Whether loading 20-ft or 40-ft containers, palletized or non-palletized, WeJOHAR's focus remains the same — precision, care, and global-class reliability.
